FY99/00 Military Construction Projects by State	168

### BASE REALIGNMENT AND CLOSURE ARMY OVERVIEW

The Army will implement BRAC 95 (BRAC IV) as described in the Defense Base Closure and Realignment Commission's report to the President. Consistent with budgets for prior BRAC rounds, no military end strength savings are shown in this plan, since those savings already have been made independent of the BRAC process. Reductions of civilian personnel will occur during FY 96 to FY 01. The resulting savings and eliminations are indicated for each package.

Environmental restoration will be funded by the Base Closure Account (BCA) IV account for all years FY96-FY01. This FY99 Amended Budget Estimate reflects current estimates of the environmental requirements based on the available Environmental Baseline Studies (EBS) and recently completed site level data analysis. The Army established restoration advisory boards at eighteen BRAC 95 installations and initiated reuse based on studies and remedial actions at several installations.

I. Fiscal Year 1996: The first year of implementation is budgeted at \$230.6 million. These funds allowed the Army to initiate planning and design for all construction projects to permit accelerated execution. The Army released all FY 96 and FY 97 projects for 35% concept design in the first quarter of FY 96. FY 96 projects had minimal requirements for design and were awarded in FY 96.

The Army funded environmental baseline studies required at closing or realigning installations where excess real property exists. National Environmental Policy Act (NEPA) efforts to support construction and movement schedules began at most gaining installations.

The Army began funding legally mandated environmental restoration requirements. However, the Army delayed initiating the majority of new environmental studies (Site Investigations, remedial investigations/feasibility studies (RI/FS)) until FY 98.

- A. MAJOR EVENTS SCHEDULE.
  - 1. Construction.

- a. Aviation-Troop Command (ATCOM), MO. Initiate design and construction of a \$38.8 million facility at Redstone Arsenal to receive the aviation elements transferring from St. Louis, MO.
- b. Fort Ritchie. Initiate design and construction of a \$21.0 million Unaccompanied Enlisted Personnel Housing facility at Fort Detrick, MD to support billeting requirements for the 1108<sup>th</sup> Signal Brigade, the 1111<sup>th</sup> Signal Battalion and others with duty station at Site R.
  - 2. Moves. Major actions include:
- a. Aviation-Troop Command (ATCOM), MO. Begin relocating the advance party in support of the Aviation Research, Development & Engineering Center, Aviation Management, Aviation Program Executive Office moves to Redstone Arsenal.
- b. Letterkenny Army Depot, PA. Begin relocating functions related to towed and self-propelled combat vehicle mission to Anniston Army Depot, AL.
- c. Reducing the operations at Fitzsimons Army Medical Center to a Troop Clinic beginning in June 1996.
  - B. BASE CLOSURE ACCOUNT BUDGET REQUEST. \$230.6 million.
- C. MISSION IMPACTS. Planned actions will have no adverse impact on the missions of affected organizations.
  - D. CONJUNCTIVELY FUNDED PROJECTS. None.

II. <u>Fiscal Year 1997</u>: The second year of implementation was budgeted at \$423.0 million. The majority of BRAC 95 construction was awarded this year to include the facilities to move the Army's Military Police and Chemical Schools to Fort Leonard Wood, MO. The Bio-medical Equipment Repair Training facility and several projects at Fort Detrick were also awarded this fiscal year.

The Army continued accelerating ATCOM disestablishment by completing new facilities at Redstone Arsenal and moving personnel to the four gaining locations.

The Army has closed 15 of the 29 scheduled BRAC 95 closure actions through FY97. There are five more closures scheduled in FY98 and three in FY99.

Environmental restoration actions aim to support interim leasing and accelerated property disposal. The Army expects to receive economic development conveyance (EDC) applications from several installations in FY98 which will require continued acceleration of environmental actions.

#### A. MAJOR EVENTS SCHEDULE.

- 1. Construction. The Army projects a one year design period for the FY 97 construction projects and exceeded the goal of awarding 75 percent of the construction contracts by the end of the third quarter of FY 97.
- a. Savanna Army Depot, IL. Begin construction and renovation of a \$6.1 million General Instruction Building. Begin Phase I \$6.1 million construction project of a total \$14.2 million Administrative, Instruction, Storage, and RDTE facility to support requirements for relocating the Ammunition Center and School to McAlester Army Ammunition Plant, Oklahoma.
- b. Fort McClellan, AL. Complete design and award contracts at:

- (1) Fort Leonard Wood, MO:
  - (a) \$63.6 million General Instruction Facilities
  - (b) \$32.7 million Applied Instruction Facilities
  - (c) \$64.9 million Unaccompanied
    Enlisted Personnel Housing
  - (d) \$29.0 million Chemical Defense Training Facility
  - (e) \$0.496 million for two General Officer Ouarters.
- (2) Anniston Army Depot for a \$1.4M Explosive Ordnance Disposal Detachment Operations Building, Storage and Hardstand.
- (3) Fort Jackson, SC for a \$6.2M training facility for the Defense Polygraph Institute.
- c. Army Baltimore Publications Distribution Center. Complete minor modifications to the gaining St. Louis facility.
- d. Concepts Analysis Agency. Begin constructing a \$6.7M administrative facility at Fort Belvoir, VA.
  - e. Fort Ritchie. At Fort Detrick, MD:
- (1) Begin constructing a \$6.4 million General Purpose Administrative Facility to house the 1108<sup>th</sup> Signal Brigade and ISEC-CONUS elements.
- (2) Initiate \$0.8\$ million renovation of a modular bay general purpose storage facility and make minor modifications to existing warehouse facility to support the  $1108^{th}$  Signal Brigade.
  - (3) Begin constructing a \$1.54 million

Military Police Company Headquarters facility to support the realigning unit.

- (4) Initiate \$0.8 million renovation of a secure administrative space within an existing building to support the Technical Applications Office.
- f. Letterkenny AD. Initiate \$1.95 million renovation of a facility to support the Defense Information Systems Agency Western Hemisphere activity.
- g. Fitzsimons Army Medical Center. Using a design/build contract, construct a \$14.7 million Biomedical Equipment Repair Training Facility (BMET) at Sheppard AFB, TX.
- h. Fort Monmouth, NJ. Initiate a \$2.4 million renovation of administrative space to support transferring ATCOM elements.
  - 2. Moves. Major actions include:
- a. Aviation-Troop Command, MO. Continue relocating the Aviation Research, Development & Engineering Center, Aviation Program Executive Office, and Aviation Management to Redstone Arsenal, AL. Begin relocating:
  - (1) Functions related to the materiel management of communications-electronics to Fort Monmouth, NJ.
  - (2) Soldier systems to Natick Research and Development Center, MA.
  - (3) Automotive materiel management functions to Detroit Arsenal, MI.
- b. Stratford Army Engine Plant, CT. Begin moving the AGT 1500 Engine Recuperator Manufacturing Process to Anniston Army Depot, AL.

- c. Kimbrough and Kenner Army Community Hospitals (Fort Meade, MD and Fort Lee, VA). Complete realignments to terminate inpatient services.
- d. Fitzsimons Army Medical Center. Relocate the Office of the Civilian Health and Medical Program of the Uniformed Services (OCHAMPUS) to leased space in Denver, CO.
- e. Fort Dix, NJ. Inactivate the active component garrison and establish the USAR garrison effective 1 Oct 97.
- f. Fort Pickett, VA. Inactivate the USAR garrison and transfer the enclave to the Virginia Army National Guard.
- g. Camp Kilmer, NJ. Transfer from the active component to the U.S. Army Reserve.
- h. Camp Pedricktown, NJ. Transfer from the active component to the U.S. Army Reserve.
- i. Fort Chaffee, AK. Inactivate the active component garrison and establish an Arkansas Army National Guard garrison effective 1 October 1997.
- j. Letterkenny Army Depot, PA. Continue relocating functions related to towed and self-propelled combat vehicle mission to Anniston Army Depot, AL.
- k. Seneca Army Depot Activity, NY. Begin relocating ammunition stocks to Base X sites.
- 1. Red River Army Depot, TX. Begin relocating retained maintenance workload to Anniston Army Depot site and the private sector (non-core).
- m. Army Publications Distribution Center. Relocate remaining stocks and close the Baltimore facility.

- n. Fort Ritchie, MD. Transfer operational responsibility for the Alternate National Military Command Center to MEDCOM (Fort Detrick, MD).
  - B. BASE CLOSURE ACCOUNT BUDGET REQUEST. \$423.0 million.
- C. MISSION IMPACTS. Planned actions will have no adverse impact on the missions of affected organizations.
  - D. CONJUNCTIVELY FUNDED PROJECTS. None.

#### III. Fiscal Year 1998:

- A. MAJOR EVENTS SCHEDULE.
  - 1. Construction.
- a. Sierra Army Depot, CA, and Detroit Arsenal, MI. Initiate realignment construction projects.
- b. Oakland Army Base. Begin constructing a \$2.95 million administrative facility to house the  $5^{\text{th}}$  Readiness Group at Travis Air Force Base, CA.
  - c. Fitzsimons Army Medical Center.
- (1) Initiate \$2.1 million construction project to divest the sewer treatment plant.
- (2) Begin \$2.5 million renovation of a headquarters and administrative facility for the Lead Agent and Readiness Group, Denver at Fort Carson, CO.
- (3) Begin constructing a \$3.8 million laboratory and administrative space to support Center for Health Promotion and Preventive Medicine (CHPPM-DSA) West at Fort Lewis, WA.
- (4) Begin constructing a \$1.5 million Nurse Training facility at Walter Reed AMC, Washington, DC.
- d. Fort Greely. Begin constructing a new \$0.6 million missile test site at Fort Wainwright.
- e. East Fort Baker, CA. Begin constructing a \$9.5 million USAR Center at Camp Parks, CA, and a \$3.9 million administrative facility at Nellis AFB, CA for HQ, 6<sup>th</sup> Recruiting Brigade.
- f. Seneca Army Depot. Begin renovating facilities for storage of Industrial Plant Equipment at Hawthorne Army

Ammunition Plant, NV.

- g. Fort McClellan, AL. Complete design and award contracts at Fort Leonard Wood for:
  - (1) A \$5.1 million MOUT Facility.
  - (2) Training Range modification (\$19.9
     million).
- h. Concept Analysis Agency. Continue administrative facility construction at Fort Belvoir, VA.
- i. Fort Ritchie, MD. Complete the Unaccompanied Enlisted Personnel Housing facility construction at Fort Detrick, MD.
- j. McAlester AAP. Begin Phase II construction of Administrative Facility.
  - 2. Moves. Major actions include:
- a. Aviation-Troop Command (ATCOM), MO. By Dec 97, finish moving:
- (1) Aviation Research, Development & Engineering Center, Aviation Management, and Aviation Program Executive Office to Redstone Arsenal, AL.
- (2) Functions related to the materiel management of communications-electronics to Fort Monmouth, NJ.
- (3) Functions related to soldier systems to Natick Research and Development Center.
- (4) Functions related to automotive materiel management functions to Detroit Arsenal, MI.
- b. Savanna Army Depot, IL. Move the Ammunition Center and School to McAlester Army Depot. Begin moving

ammunition stocks.

- c. Seneca Army Depot Activity, NY. Continue relocating ammunition stocks. Begin moving Industrial Plant Equipment to Hawthorne Army Ammunition Plant.
- d. Red River Army Depot, TX. Complete relocation of workload to Anniston Army Depot. Begin consolidating remaining workload into retained footprint.
- e. Sierra Army Depot, CA. Begin moving ammunition stocks to Base X sites.
- f. Fort McClellan, AL. Move the Department of Defense Polygraph Institute to Fort Jackson, SC.
- g. Fort Ritchie, MD. Relocate remaining personnel and close the installation.
- h. Stratford Army Engine Plant, CT. Cease production and operations, and close the facility.
- i. Fort Missoula, MT. Inactivate active component garrison and transfer to Reserve component.
- j. Detroit Tank Plant, MI. Cease production and operations. Complete closure.
- k. Oakland and Bayonne MOT. Begin moving personnel from Oakland and Bayonne to temporary facilities and establish MTMC's CONUS Command at Ft Eustis, VA.
  - B. BASE CLOSURE ACCOUNT BUDGET REQUEST. \$388.6 million.
- C. MISSION IMPACTS. Planned actions will have no adverse impact on the missions of affected organizations.
- D. CONJUNCTIVELY FUNDED PROJECTS: Ft. Detrick Health/Dental Clinic (BRAC \$0.65 million).

#### IV. Fiscal Year 1999:

- A. MAJOR EVENTS SCHEDULE.
  - 1. Construction.
    - a. Fitzsimons Army Medical Center, CO.
- (1) Continue construction projects at Fort Lewis, Sheppard AFB, and Walter Reed.
- (2) Complete sewer plant divestiture construction at Fitzsimons Army Medical Center.
- (3) Complete renovating the headquarters and administrative facilities for the Lead Agent and Readiness Group, Denver at Fort Carson.
- (4) Begin constructing \$1.55 million warehouse addition in the reserve enclave.
- (5) Begin \$2.75 million conversion of the post exchange to a reserve center in the enclave.
  - b. Fort Greely, AK.
- (1) Begin \$1.55 million Bolio Lake Munitions Storage Facility construction.
- (2) Begin constructing \$1.7 million Fort Wainwright Family Housing project.
- (3) Complete Fort Wainwright Missile Test Facility construction.
- c. Concept Analysis Agency. Complete administrative facility at Fort Belvoir, VA.
  - d. Fort McClellan, AL.

- (1) Construct \$2.4 million Women's Army Corps (WAC) Museum at Ft. Lee, VA.
- (2) Finish Ft. Leonard Wood construction projects.
- e. Oakland Army Base, CA, and Bayonne Military Ocean Terminal, NJ. Complete design and award \$9.6 million contract for renovation/construction of MTMC's CONUS Command headquarters at Fort Eustis, VA.
- f. Fort Holabird, MD. Begin constructing \$12 million Defense Investigative Service (DIS) administrative facility at Ft. Meade, MD.
- g. Fort Ritchie, MD. Begin constructing a conjunctively funded Physical Fitness Center at Ft. Detrick, MD. BRAC funds \$3.0 million of the project.
- h. Fort Pickett, VA. Begin constructing a \$3.1 million addition to USAR facility.
- i. Information Systems Software Center. Begin renovating existing administrative facilities at Fort Meade, MD for the ISSC's Software Development Center-Washington (\$6.3 million) and the Executive Systems Software Directorate (\$2.9 million).
- j. Fort Totten, NY. Begin constructing \$1.9 million storage facility.
- k. Savanna Army Depot, IL. Construct \$1.85 million surveillance test facility at Crane Army Ammunition Plant.

#### 2. Moves.

a. Fort McClellan, AL. Close Ft. McClellan by

moving:

- (1) Military Police School to Fort Leonard Wood, MO.
  - (2) Chemical School to Ft. Leonard Wood, MO.
- (3)  $142^{nd}$  Ordnance Detachment (EOD) to Anniston Army Depot, MO.
- b. Savanna Army Depot, IL. Finish moving ammunition stocks.
- c. Seneca Army Depot Activity, NY. Finish moving ammunition stocks and industrial Plant Equipment.
- d. Red River Army Depot, TX. Finish consolidating workload into retained footprint. Complete realignment actions.
- e. Sierra Army Depot, CA. Continue relocating ammunition stocks to Base X sites. Realign Depot operations to the final footprint.
  - f. Fitzsimons AMC, CO. Move:
    - (1) CHPPM-West to Fort Lewis, WA.
    - (2) BMET School to Sheppard AFB, TX.
    - (3) RG/Lead Agent to Fort Carson, CO.
  - B. BASE CLOSURE ACCOUNT BUDGET REQUEST. \$489.2 million.
- C. MISSION IMPACTS. Planned actions will have no adverse impact on the missions of affected organizations.
- D. CONJUNCTIVELY FUNDED PROJECTS. Ft. Detrick Fitness Center (BRAC \$3.0 million).

#### IV. Fiscal Year 2000:

- A. MAJOR EVENTS SCHEDULE.
  - 1. Construction.
- a. Fort Greely, AK. Finish Bolio Lake Munitions Storage Facility.
- b. East Fort Baker, CA. Finish projects at Camp Parks, CA and Nellis AFB.
  - c. Ft. McClellan, AL.
- (1) Complete design and award contract to realign the Fort McClellan utility system to accommodate the reserve enclave.
- (2) Award the reserve enclave Starship renovation (\$11.0 million).
- (3) Award a \$3.0 million renovation project to expand the dining facility at Fort Leonard Wood.
- d. Ft. Dix, NJ. Award \$3.1 million project to realign utilities for the reserve enclave.
- e. Letterkenny Army Depot, PA. Award \$4.3 million facilities renovation project at Tobyhanna Army Depot, PA to support movement of the Missile Guidance System workload.
  - 2. Moves.
    - a. East Fort Baker, CA. Move:
- (1) HQ, 91<sup>st</sup> Division (Training) to Camp Parks, CA.
  - (2) HQ, 6<sup>th</sup> Recruiting Brigade to Nellis

AFB.

- b. Concept Analysis Agency. Move from leased space in Bethesda, MD to Fort Belvoir.
- c. Fort Greely, AK. Realign 50 percent of the military/civilian mission spaces of Northern Warfare Training Center (NWTC) & Cold Regions Test Activity (CRTA) to Fort Wainwright, AK.
- d. Sierra Army Depot, CA. Finish moving ammunition stocks.
- e. Fitzsimons Army Medical Center, CO. Close the Medical Center.
- f. Oakland Army Base, CA. Move 5<sup>th</sup> Readiness Group moves to Travis AFB.
  - B. BASE CLOSURE ACCOUNT BUDGET REQUEST. \$398.7 million.
- C. MISSION IMPACTS. Planned actions will have no adverse impact on the missions of affected organizations.
  - D. CONJUNCTIVELY FUNDED PROJECTS. None.

#### V. Fiscal Year 2001:

- A. MAJOR EVENTS SCHEDULE.
  - 1. Construction. None.
  - 2. Moves.
- a. Fort Greely, AK. Finish moving CRTA & NWTC to Fort Wainwright, AK.
- b. Savanna Army Depot, IL. Cease mission and initiate closure.
- c. Seneca Army Depot Activity, NY. Cease mission and initiate closure.
  - d. Bayonne Military Ocean Terminal, NJ. Move:
- (1) Navy Fashion Distribution Center to Pensacola Naval Air Station.
- (2) Military Sealift Command (Atlantic) to Norfolk, VA.
- e. Information Systems Software Center. Software Development Center-Washington and Executive Systems Software Directorate move into renovated space at Fort Meade, MD.
- f. Defense Investigative Service. Move into a new facility at Fort Meade, MD.
  - B. BASE CLOSURE ACCOUNT BUDGET REQUEST. \$200.8 million.
- C. MISSION IMPACTS. Planned actions will have no adverse impact on the missions of affected organizations.
  - D. CONJUNCTIVELY FUNDED PROJECTS. None.

### BASE REALIGNMENT AND CLOSURE PACKAGE DESCRIPTION

Army/Location/Package: Army/Missouri/Aviation-Troop Command.

<u>Closure Package</u>: Disestablish Aviation-Troop Command (ATCOM), and close by relocating its missions/functions as follows:

- Relocate Aviation Research, Development & Engineering Center, Aviation Management, and Aviation Program Executive Offices to Redstone Arsenal, Huntsville, AL.
- Relocate functions related to soldier systems to Natick Research, Development, Engineering Center, MA, to align with the Soldier Systems Command.
- Relocate functions related to materiel management of communications-electronics to Fort Monmouth, NJ, to align with Communications-Electronics Command.
- Relocate automotive materiel management functions to Detroit Arsenal, MI, to align with Tank-Automotive and Armaments Command.

#### Costs:

#### Military Construction:

			Amount
Location/Project Title	<u>Fiscal Year</u>	<u>PN</u>	(\$ in 000)
Redstone/Admin Modernization	96	46141	8,572
Redstone/Sparkman Bldg Add'n	96	46310	30,261
Sub total for FY 96			38,833
Ft Monmouth/Gen Purpose Admin	97	45981	2,375
Sub total for FY 97			2,375
TOTAL PROGRAM FOR FY 1996 - 2003 Conjunctively-Funded Construction			41,208

### BASE REALIGNMENT AND CLOSURE PACKAGE DESCRIPTION (Continued)

Family Housing Construction: None

Family Housing Operations: None.

Operation and Maintenance: Includes civilian severance pay, civilian PCS, transportation of things, real property maintenance, and equipment purchases required to realign this activity to four new locations.

<u>Military Personnel</u>: None.

Other: None.

Revenues from Land Sales: None.

#### Savings:

Military Construction:

Family Housing Construction: None.

Family Housing Operations: None.

Operation and Maintenance: Savings result from eliminating 766 civilian positions and the BASOPS and real property maintenance savings resulting from the consolidation and elimination of the St. Louis lease cost.

<u>Military Personnel</u>: None.

Other: None.

#### Environmental:

The Army conducted the following environmental actions prior to construction and movement actions. The action is a relocation from a GSA-leased facility to four separate geographic locations.

#### a. NEPA:

### BASE REALIGNMENT AND CLOSURE PACKAGE DESCRIPTION (Continued)

An Environmental Assessment was conducted at Redstone Arsenal, AL, to assess the cumulative impacts of the relocation.

An Environmental Assessment was conducted at Fort Monmouth, NJ, to assess cumulative impact of the action.

A Record of Environmental Consideration was prepared at Detroit Arsenal, MI, for this realignment action.

A Record of Environmental consideration was prepared at Natick Research, Development, Engineering Center, MA for this realignment action.

#### b. Cleanup:

ATCOM: An Environmental Baseline study (EBS) is not required at the GSA facility which will be vacated by ATCOM.

c. Cultural/Natural Resources. No action required at the GSA facility.

### BASE REALIGNMENT AND CLOSURE PACKAGE DESCRIPTION

<u>Army/Location/Package</u>: Army/New Jersey/Bayonne Military Ocean Terminal.

Closure Package: Close Bayonne Military Ocean Terminal.
Relocate the Military Transportation Management Command (MTMC)
Eastern Area Command Headquarters to form the new CONUS Command at Fort Eustis, VA. Relocate the traffic management portion of the 1301st Major Port Command to Fort Monmouth, NJ. Relocate the Navy Military Sealift Command, Atlantic, Navy Resale and Fashion Distribution Center to Camp Pendleton, Norfolk, VA.

#### Costs:

#### Military Construction:

Location/Project Title	Fiscal Year	<u>PN</u>	Amount (\$ in 000)
MTMC CONUS Headquarters Bldg.	99	48315	*9,600
Subtotal for FY 99			9,600
TOTAL PROGRAM FOR FY 1996 - 20	01		9,600

<sup>\*</sup> The Army is consolidating Bayonnne and Oakland MTMC activities at Fort Eustis, VA. This project accommodates this consolidation.

Conjunctively-Funded Construction: None.

Family Housing Construction: None.

Family Housing Operations: None.

Operation and Maintenance: Includes civilian PCS, civilian severance pay and transportation of things.

Military Personnel: None.

### BASE REALIGNMENT AND CLOSURE PACKAGE DESCRIPTION (Continued)

Other: None.

Revenues from Land Sales: None.

#### Savings:

<u>Military Construction</u>: A one time cost avoidance of \$13 million is achieved with the closure of Bayonne. This savings results from the cancellation of the dredging of Bayonne harbor.

Family Housing Construction: None.

<u>Family Housing Operations</u>: Savings are achieved with the elimination of 127 housing units.

Operation and Maintenance: Savings result from reduced base operations and real property maintenance costs associated with the closure of the two existing locations, along with eliminating selected civilian personnel.

Military Personnel: None.

Other: None.

#### Environmental:

- a. NEPA: An environmental assessment will be prepared for property disposal actions. Fort Eustis has been selected as the relocation site and an Environmental Assessment (EA) has been completed with findings of no significant impact. The EA results were advertised in the federal registry and the 30-day period for comment ended on 15 September 1997. A Record of Environmental Consideration (REC) is being completed to account for the earlier than planned arrival of MTMC personnel at Fort Eustis.
- b. Cultural/Natural Resources: Appropriate studies and consultation will be conducted at the disposal locations.
- c. Cleanup. An Environmental Baseline Survey was conducted in January 1997 to determine initial site characterization and will be followed up with appropriate studies and remedial action as necessary.

Renovation of Proposed Construction Renovate one building, and construct an addition. Renovation includes gutting the interior to provide maximum space utilization and life safety upgrades. Project also includes a network response center, emergency operations center, message center, training room — movement control, training room — carrier performance, secure copy area, and an uninteruptable power source (UPS). Supporting facilities for new construction include utilities, electric service, paving, storm drainage, parking, information systems, and site improvements. Existing parking areas will be upgraded. Heating will be provided by natural gas. Air conditioning: 283 tons. Access for the handicapped will be provided.

11. REQ: NONE ADQT: NONE SUBSTD: NONE PROJECT: Renovate one building and construct an addition. (Current Mission) REQUIREMENT: This project is required to provide adequate and complete facilities and other special purpose space to support the relocation of Military Traffic Management Command (MTMC) Oakland Army base and Bayonne Military Ocean Terminal (MOT) (BRAC 95 sites) into a consolidated continental United States (CONUS) command for the Military Traffic Management Command. This move is a result of Base Realignment and Closure-95 (BRAC-95).

### BASE REALIGNMENT AND CLOSURE PACKAGE DESCRIPTION

<u>Army/Location/Package</u>: Army/Maryland/Concept Analysis Agency.

<u>Closure Package</u>: Close by relocating Concepts Analysis Agency from Bethesda, Maryland, to Fort Belvoir, VA.

#### Costs:

<u>Military Construction:</u> Construction of a new 47,600 gross square foot administrative facility begins September 1997 with an estimated construction period of 18 months. Project was awarded at \$6,624,000.

Location/Project Title	Fiscal Year	<u>PN</u>	Amount (\$ in 000)
Ft. Belvoir/Admin Facility	97	45858	6,700
Sub total for FY97			6,700
TOTAL PROGRAM FOR FY 1996 - 200	)1		6,700

Conjunctively-Funded Construction: None.

Family Housing Construction: None

Family Housing Operations: None.

Operation and Maintenance: Includes civilian PCS, transportation of things, and equipment purchases required to realign this activity to the new location.

Military Personnel: None.

Other: Purchase of equipment that is required in support of the new construction that is currently available through the lease.

### BASE REALIGNMENT AND CLOSURE PACKAGE DESCRIPTION (Continued)

Revenues from Land Sales: None.

#### Savings:

<u>Military Construction</u>:

Family Housing Construction: None.

Family Housing Operations: None.

Operation and Maintenance: Elimination of the CAA lease versus new BASOPS costs at Fort Belvoir results in the net annual recurring savings.

Military Personnel: None.

Other: None.

<u>Environmental</u>: There are no known environmental impediments at the closing site or receiving installation. The closing site is leased property. The Army will document the environmental condition of the property prior to termination of the lease. An Environmental Assessment for Fort Belvoir was completed December 1996.

Army/Location/Package: Army/Michigan/Detroit Arsenal.

<u>Closure Package</u>: Realign Detroit Arsenal by closing and disposing of the Detroit Army Tank Plant.

## Costs:

## Military Construction:

	Location/Project	Title	Fiscal Year	<u>PN</u>	Amount (\$ in 000)
	Detroit Arsenal, Facility	MI/Storage	98	46300	5,900
OTAI	L PROGRAM FOR FY	1996 - 2001	L		5.900

Conjunctively-Funded Construction: None.

Family Housing Construction: None

Family Housing Operations: None.

Operation and Maintenance: Includes information management, civilian PCS, civilian severance pay, relocation costs associated with realignment of missions and functions and transportation of things.

Military Personnel: None.

Other: Investments associated with the production close out and facility closure.

Revenues from Land Sales: The Army expects to receive a total of \$3,700,000 during FY98 as a partial payment for the Detroit Tank Plant property. The total expected revenues are \$5,900,000.

## Savings:

Military Construction: None.

Family Housing Construction: None.

Family Housing Operations: None.

Operation and Maintenance: Because of the accelerated transfer, the Army will realize approximately \$4,000,000 in savings. Savings are a result of reduced operating costs of the Detroit Arsenal Tank Plant.

<u>Military Personnel</u>: None.

Other: None.

### Environmental:

- a. NEPA: A finding of No Significant Impact (FNSI), stemming from the Army's Environmental Assessment of disposal/reuse impacts for this property was signed on 29 Nov 97.
- b. Cultural/Natural Resources: Appropriate studies and consultation have been conducted at the disposal location. A Programmatic Agreement (PA) was signed by the State Historic Preservation Officer (SHPO), the Advisory Council on Historic Preservation, the Army and the City in Dec 97.
- c. Cleanup. An Environmental Baseline Survey (EBS) was completed in March 97. The EBS identified 33 CERFA category seven sites as sites needing further investigation and/or remediation. The remedial investigation phase is currently in progress and will identify concentration levels as well as contaminants present. Affected media are soil and groundwater.

<sup>\*</sup> Fitzsimons closure schedule requires the early award of the BMET facility. Award was made in a timely manner and construction is on track.

<sup>\*\*</sup> Projects previously approved for award in FY97 were deferred until FY98 to accelerate award of BMET.

Family Housing Construction: None

Family Housing Operations: None.

Operation and Maintenance: Includes civilian severance pay, procurement of equipment (systems and barracks furniture), transportation of things, and communications.

Military Personnel: None.

Other: Includes medical equipment (E&F) to support MILCON requirements.

Revenues from Land Sales: None.

<u>Savings</u>: The Department transferred the net savings resulting from the Fitzsimons closure (\$116.6M) from the ASD(HA) programs to the Army to offset BRAC implementation costs. This budget decision also states that funding responsibility for Fitzsimons closure is the Army's. The ASD(HA) savings numbers were agreed to and used to develop this implementation package.

Military Construction: None.

Family Housing Construction: None.

Family Housing Operations: None.

Operation and Maintenance: Savings result due to facilities reduction plans as the hospital and installation transitions from a medical center to a clinic.

Military Personnel: None.

Other: None.

## **Environmental:**

- a. NEPA: An Environmental Impact Statement for the disposal of Fitzsimons is out for 30 day comment, and will be complete on 8 Feb 98. Fort Lewis, Walter Reed AMC, Fort Carson, Sheppard AFB will prepare NEPA documents for gaining, discretionary moves, and associated FAMC BRAC MILCON requirements. Compliance: Remedial investigations and surveys scheduled.
- b. Historical/Cultural & Natural Resources: Historical, Cultural & Natural Resources studies (FITZ 95-20) are ongoing.
- c. Cleanup: The Environmental Baseline Survey (EBS) is complete. (Jun 96) Remedial Investigations/Feasibility Studies (RI/FS) are ongoing. Additional studies and remediation are planned for FY 99. The Base Environmental Coordinator salary, Restoration Advisory Board and other studies are projected for funding.

in support of the US Army Reserve units assigned to Fitzsimons. This additional storage will meet the needs of the units for storing tents, equipment sets, winter gear, camouflage nets, and other organizational equipment. This project replaces leased facilities in Aurora, Colorado. The Reserve Center is located on Fitzsimons Army Medical Center. Approximately 677 soldiers in nine units train at the facility. Lack of storage space has caused the units to lease storage space at a cost of \$98,000 per year. This construction is in lieu of the US Army Reserve retaining the child care center at Fitzsimons for Army Reserve use. IMPACT IF NOT PROVIDED: If this project is not provided, reserve enclaves will continue to exist in non-contiguous areas and will not maximize property available for reuse. Providing contiguous spaces complies with BRAC rules for establishing US Army Reserve enclaves. This project is necessary to comply with BRAC 95 requirements to excess existing facilities and replace the high cost lease facility. Equipment maintenance readiness will be sacrificed without required storage space. Some materials may have to be stored in the open, under temporary cover, which may result in early equipment deterioration and replacement. Current leased facility is costly and needs considerable upgrade to maintain usefulness. Failure to build this warehouse addition will cause US Army Reserve to expend limited maintenance and equipment funds for the warehouse lease, degrading readiness of the Reserve units. This project has been coordinated with the installation physical ADDITIONAL: security plan, and all required physical security and/or combatting terrorism (CBT/T) measures are included. This project complies with the scope and design criteria of DOD 4270.1-M, Construction Criteria, that were in effect 1 January 1987, as implemented by the Army's Architectural and Engineering Instructions (AEI), Design Criteria, dated 3 July 1994.

Army Reserve (	enter Building		·	50296

#### REQUIREMENT: (CONTINUED)

personnel) with the mission of providing institutional and MOS training for USAR and National Guard soldiers. It will also include training facilities for a veterinary services detachment (48 personnel) whose mission is to provide food and rations inspections, a dental services detachment (59 personnel) whose mission is to provide dental services in support of a hospital, a 1,000 bed Army hospital (304 personnel), and medical support unit (61 personnel) whose mission is to provide physical examinations (previously provided by the hospital unit). The project includes repair of paved areas to provide parking. CURRENT SITUATION: The 5046th USARP School, recently redesignated as the 1st Battalion (Bn) Military Police (MP) and Headquarters (HQ), 6th 1st Bn (MP) and HQ, 6th Brigade (Bde) of the 104th Division(IT), is entirely located in facilities that must be vacated as a result of the BRAC 95 legislation. The medical units currently utilize existing facilities in the FAMC hospital complex for essential mission training. The loss of these facilities to the US Army necessitates their duplication within the USAR enclave. Space shortages in the McWethy US Army Reserve Center such as unit storage, parking, assembly space, physical readiness, classrooms, and other training areas are all provided in whole or on FAMC installation.

The McWethy US Army Reserve Center was constructed IMPACT IF NOT PROVIDED: on Fitzsimons Army Medical Center to take advantage of existing and available US Army medical resources. Much of the authorized training and other space was not included in McWethy due to the assumption that it was readily available on the installation. The BRAC closure at the installation leaves the US Army Reserve units that will remain with a critical shortage of space in all categories. These spaces must be provided in the AAFES retail building that is included in the area to be retained as a US Army Reserve Enclave. Loss of this project would require displaced units and other functions to occupy space designed as a department store. The ability to perform physical exams and the entire medical training mission of the four medical units would essentially be eliminated. Unit storage and administration would have to be accomplished at the McWethy USAR Center which is already overcrowded. The school's mission would be greatly impacted without required facilities. Normal Real Property Maintenance Account (RPMA) budgets could not adequately address the problems the units would face in trying to accomplish their missions in a building designed as a retail store. Therefore, mobilization and unit readiness objectives would not be met.

<u>ADDITIONAL</u>: This project has been coordinated with the installation physical security plan, and no physical security and/or combatting terrorism (CBT/T) measures are required. This project complies with the scope and design criteria of DOD 4270.1-M, "Construction Criteria," that were in effect 1 January 1987, as implemented by the Army's Architectural and Engineering Instruction (AEI), "Design Criteria," dated 3 July 1994.

Army/Location/Package: Army/Puerto Rico/Fort Buchanan.

<u>Closure Package</u>: Realign Fort Buchanan. Dispose of family housing. Retain facilities as necessary to fulfill mobilization missions and requirements, and enclave support functions. Retain an enclave for the Reserve Components, Army and Air Force Exchange Service (AAFES) and the Antilles Consolidated School.

### Costs:

Military Construction: None.

Conjunctively-Funded Construction: None.

Family Housing Construction: None.

Family Housing Operations: None.

Operation and Maintenance: Includes civilian severance pay and transportation of equipment costs. Costs cover the transfer of government property and the closing of all affected buildings and facilities.

Military Personnel: None.

Other: None.

Revenues from Land Sales: None.

#### Savings:

Military Construction: None.

Family Housing Construction: None.

<u>Family Housing Operations</u>: Savings will result from the disposal of the family housing units at Ft. Buchanan. Savings include civilian pay and base operations support.

# PACKAGE DESCRIPTION (Continued)

Operation and Maintenance: Base operations costs will be reduced when the installation is realigned/reduced.

Military Personnel: None.

Other: None.

**Environmental**: The Army will complete an Environmental Assessment at Fort Buchanan.

There are no known environmental impediments.

Army/Location/Package: Army/Arkansas/Fort Chaffee.

<u>Closure Package</u>: Close Fort Chaffee, except minimum essential buildings, and ranges for Reserve Component (RC) training as an enclave to permit individual and annual training.

## Costs:

Military Construction: None.

Conjunctively-Funded Construction: None.

Family Housing Construction: None

Family Housing Operations: None.

Operation and Maintenance: Includes civilian severance pay, civilian PCS, utilities disposal, and transportation of things.

Military Personnel: None.

Other: Includes investment items required to establish the reserve enclave.

Revenues from Land Sales: None. The Army has licensed required land and facilities to the Army National Guard.

### Savings:

Military Construction: None.

Family Housing Construction: None.

Family Housing Operations: None.

Operation and Maintenance: The elimination of active component garrison and reduced base operations costs under the reserve component operations will generate the savings in this

package.

Military Personnel: None.

Other: None.

# Environmental:

- a. NEPA: An environmental impact statement is being prepared for property disposal actions.
- b. Cultural/Natural Resources: Appropriate studies and consultation will be conducted at the disposal location.
- c. Cleanup. An Environmental Baseline Survey has been conducted to determine initial site characterization and will be followed up with appropriate studies and remedial action as necessary.

TOTAL PROGRAM FOR FY 99			1,550
TOTAL PROGRAM FOR FY 1996 - 20	01		2,150

<u>Conjunctively-Funded Construction</u>: None.

## Family Housing Construction:

Location/Pro	ject Title	Fiscal	Year	PN	(\$ in 000)
Ft Wainwright	Family Housing	g	99	47530	1,700

Family Housing Operations: None.

Operation and Maintenance: Provides for civilian PCS, civilian severance, transportation of things and movement of equipment from Fort Greely, AK to Fort Wainwright, AK. Provides for minor construction and renovation of multiple facilities at Forts Wainwright and Greely. Provides for the demolition of

facilities at Fort Greely.

Military Personnel: None.

Other: None.

Revenues from Land Sales: None.

<u>Savings</u>: Savings are achieved due to decreased costs in operations and maintenance of the installation as excess facilities are mothballed. Savings will not be realized until realignment begins in FY 00.

Military Construction: None.

Family Housing Construction: None.

Family Housing Operations: None.

Operation and Maintenance: Installation facilities reduction results in savings in FY 00.

Military Personnel: None.

Other: None.

<u>Environmental</u>: There are no known environmental impediments at the realigning or receiving installations.

- a. NEPA: The Environmental Assessment (EA) for Bolio Lake Training Complex is complete. The disposal/reuse EA for Fort Greely and Fort Wainwright are ongoing.
- b. Compliance: Remedial Investigation surveys for Lead Based Paint (LBP), Radon and Asbestos are scheduled, but will be executed by exception in FY 99 and outyears. The removals and retrofitting of various underground storage tanks are included in the proposed funding scheme.
- c. Historical/Cultural & Natural Resources Compliance: A programmatic agreement/MOA on CNR at Fort Greely (FGA-BRAC9) and

CNR documentation (FWA-BRAC-10) are ongoing.

d. Cleanup: Radioactive material clean up and remediation is ongoing, based on a plan developed in close consultation between the Army and necessary State of Alaska and federal agencies. Excavation of radioactive contaminated soil will continue after the thaw and should be finished during FY98. Removed material is being properly stored on the installation pending final disposal at an approved site during FY98/99. The Base Environmental Coordinator salary, Restoration Advisory Board and other studies are programmed in FY 99.

10.Description of Proposed Construction Construct a Category I munitions storage facility at Bolio Lakes Complex, approximately 8-miles southwest of Fort Greely, Alaska. The proposed project's primary facilities include: a Category I Ammunitions Storage Building, a Category I, Ammunition Storage Bunker, and a Portland Cement Concrete (PCC) Equipment Pad for use with proponent equipment. The proposed 1,027-sf, 13-foot high, Category I, Ammunition Storage Bunker, features PCC construction throughout, arched roof construction, front and rear buttress walls and foundations, thickened slab floor construction, 1,250-Cubic Yards of earthen covering over all elevations excepting the front buttress of the structure, a membrane waterproofing system on arched roof and buried rear buttress wall, 8-foot armor blast double doors in the front buttress wall, a communications, security, and alarm system, a ventilator system, and a 2,125-sf exterior concrete apron. The 392-sf Category I Ammunitions Storage Building, features PCC construction throughout, a thickened slab on grade foundation system, standing seam metal roof, high security construction for special purpose room, and lightning protection. The PCC Equipment Pad shall be 924-sf. Support facilities shall include approximately: 3,000-linear foot of un-surfaced roadways; 1,342-linear foot of 8-foot high security fencing with barb wire; 5,450-Cubic Yards of 10-foot high protective earthen blast berms

# DESCRIPTION OF PROPOSED CONSTRUCTION: (CONTINUED)

surrounding the Category I Ammunitions Storage Building and the PCC Equipment Pad; 2,850- linear foot of 7200 VAC, 3-phase, pole mounted and buried electrical supply; 1.5-miles of 25-pair buried communications and intrusion alarm cables; 2-Closed Circuit Television video cameras and a distant remote monitoring station with 5,500-linear foot of 62.5-Micron Direct burial Fiber Optic Cable and control wiring; and 16 pole mounted, 250-watt, high intensity security and area lights. The project also includes the clearing and grading of the proposed munitions site and the clearing of the road, electrical, and communications access. The site clearing requirements includes approximately 6.2-acres.

11. REQ: 132 m2 ADQT: NONE SUBSTD: NONE PROJECT: Construct an ammunition bunker and a munitions storage area for storage of munitions of up to 10,000 pound of explosives. (New Mission) REQUIREMENT: This project is required to provide a munitions storage facility for Cold Regions Test Activity (CRTA). The CRTA provides testing of munitions to determine their ability to withstand an arctic environment. The new facility is required to maintain the CRTA mission.

CURRENT SITUATION: met) Currently, the CRTA mission is assigned to Fort Greely. As a result of Base Realignment and Closure 95, CRTA and Northern Warfare Training Center headquarters, administration and installation support are being realigned to Fort Wainwright. Mission activities (i.e., testing and mountain/cold weather training) will continue to be conducted at Bolio Lake and Black Rapids sites respectively.

IMPACT IF NOT PROVIDED: Without this project, the CRTA will be unable to carry out its mission of testing munitions in an arctic environment. Without the storage facility, the Activity would be severely limited in ability to capture field generated research data concerning the testing of munitions in the severe arctic environment.

ADDITIONAL: This project has been coordinated with the installation physical security plan, and all required physical security and/or combating terrorism (CBT/T) measures have been incorporated. This project complies with the scope and design criteria of DOD 4270.1M, Construction Criteria, that were in effect 1 January 1987, as implemented by the Army's Architectural and Engineering Instruction (AEI), Design Criteria dated 8 July 1992.

4 PROJECT TITLE				5.	PROJECT	NUMBER		
Family Housing	Γ						47530	)

REQUIREMENT: This project is required to provide the housing needed for military personnel and their families. As a result of Base Realignment and Closure-95 (BRAC-95) initiatives, Cold Regions Test Activity (CRTA) and the Northern Warfare Training Center (NWTC) headquarters, administrations and installation support are being realigned from Fort Greely to Fort Wainwright. On-post housing at Fort Wainwright is severely limited. CURRENT SITUATION: Five bedroom units are not available. Long waiting lists for housing require most soldiers to find off-post housing. Housing (including utilities) in the Fairbanks area is very expensive, with limited vacant units available. A market analysis conducted in 1995 projects only a two percent vacancy rate for off-post housing, significantly restricting the availability of affordable, adequate housing. Traditionally, units built in rural borough areas have not been built to Uniform Building Code (UBC) standards and often have marginal utility systems. The harsh arctic winter requires a reliability standard for heat, water, etc., which is often lacking.

IMPACT IF NOT PROVIDED: If this project is not provided, soldiers and family members may be separated, the waiting list for on-post housing will increase, and families currently living off-post will continue to do so in inadequate housing. Morale will decline as soldiers and families become increasingly dissatisfied with living conditions. This attitude will eventually affect the soldiers at work, and impact on the mission. The Army could experience a loss of qualified personnel.

ADDITIONAL: This project has been coordinated with the installation physical security plan, and no physical security and/or combatting terrorism (CBT/T) measures are required. This project complies with the scope and design criteria of DOD 4270.1-M, "Construction Criteria," that were in effect 1 January 1987, as implemented by the Army's Architectural and Engineering Instruction (AEI), "Design Criteria," dated 3 July 1994.

<u>Army/Location/Package</u>: Army/Maryland/Fort Holabird.

<u>Closure Package</u>: There were two recommendations affecting Fort Holabird. These are:

Army: Close Fort Holabird. Relocate the Defense Investigative Service (DIS), Investigations Control and Automation Directorate (IC&AD) Fort Meade, Maryland.

Defense Agency: DIS and IC&AD. Relocate the DIS and IC&AD from Fort Holabird, Maryland to a new facility to be built on Fort Meade, Maryland. This proposal is a revision to the 1988 Base Closure Commission's recommendation to retain the Defense Investigative Service at Fort Holabird. Once DIS vacates the building on Fort Holabird, the base will be vacant.

### Costs:

## Military Construction:

			Amount
Location/Project Title	<u>Fiscal Year</u>	<u>PN</u>	(\$ in 000)
Ft. Meade/DIS Admin Fac	99	46307	12,000
TOTAL PROGRAM FOR FY 1996	- 2001		12,000

<u>Conjunctively-Funded Construction</u>: The Defense Investigative Service (DIS), Investigations Control and Automation Directorate (IC&AD) funded a move to a temporary location at BWI airport in July 1996.

Family Housing Construction: None.

Family Housing Operations: None.

Operation and Maintenance: Includes mothball costs associated with the closure of Fort Holabird.

Military Personnel: None.

Other: None.

Revenues from Land Sales: None.

## Savings:

Military Construction: None.

Family Housing Construction: None.

Family Housing Operations: None.

Operation and Maintenance: Closure of Fort Holabird results

in a recurring savings of \$170K per year.

Military Personnel: None.

Other: None.

Environmental: An Environmental Assessment (EA) with Finding of No Significant Impact was completed in March 1997 for the disposal and reuse of Fort Holabird DIS, and disposal of Cummins Apartments. There are no known environmental impediments at the realigning or receiving installations. An Environmental Assessment (EA) is being prepared at the gaining installation, Fort Meade, Maryland which will include the movement of DIS to Fort Meade.

10.Description of Proposed Construction Construct an administrative building, general purpose to support the Defense Investigate Service Investigations Control and Automated Directorate. Project includes office space, administrative support space, automated data processing (ADP) area, computer rooms, photographic laboratory, and storage space. Comprehensive interior services are required. Install an intrusion detection system (IDS). Connect energy monitoring and control system (EMCS). Supporting facilities include utilities; electric service; security lights; sprinkler system, and fire protection and alarm systems; paving, walks, curbs and gutters; storm drainage; signage; information systems; remove asphalt pavement (2,000 SY), and site improvements. Access for the handicapped will be provided. Heating (gas-fired) and air conditioning (123 tons) will be provided by self-contained units. Design and construction will be in accordance with the Fort George Meade Installation Design Guide.

11. REQ: 149,750 m2 ADQT: 74,787 m2 SUBSTD: 40,506 m2

REQUIREMENT: This project is required to provide office, administrative support, computer and storage space for the Defense Investigative Service Investigations Control and Automated Directorate which is relocating from Fort Holabird, Maryland to Fort George Meade. The project will provide adequate and appropriate space for the accomplishment of the mission of the Defense Investigative Service Investigations Control and Automated Directorate. This relocation is the result of Base Realignment and Closure (BRAC) initiatives directed by the US Congress and represents the addition of a new organization at Fort George Meade, Maryland.

The Defense Investigative Service Investigations Control CURRENT SITUATION: and automated Directorate is currently located at leased space some 10 miles from Fort George Meade. Fort Meade does not have permanent facilities available or suitable to support the relocation of this organization. If this project is not provided, adequate facilities IMPACT IF NOT PROVIDED: to house the Defense Investigative Service Investigations Control and Automated Directorate will not be available at Fort George Meade. Existing permanent administrative facilities are fully utilized and other on-post structures are unsuitable or uneconomical for renovation and conversion. This relocation is mandated by the Base Realignment and Closure initiatives. The relocation will not be effectively accomplished without this project. This project has been coordinated with the installation physical security plan, and all required physical security and/or combatting terrorism (CBT/T) measures are included. This project complies with the scope and design criteria of DOD 4270.1-M, Construction Criteria, that were in effect 1 January 1987, as implemented by the Army's Architectural and Engineering Instructions (AEI), Design Criteria, dated 3 July 1994.

Family Housing Operations: None.

Operation and Maintenance: Includes civilian severance pay, civilian PCS, transportation of equipment, real property maintenance and purchase of equipment.

Military Personnel: None.

Other: Includes purchase of IMA support equipment.

Revenues from Land Sales: None.

### Savings:

Military Construction: None.

Family Housing Construction: None.

Family Housing Operations: None.

Operation and Maintenance: Savings are achieved with civilian eliminations and reduced base operations and real property maintenance at Fort McClellan.

Military Personnel: None.

Other: None.

Environmental: The Army completed an Environmental Impact Statement (EIS) at Fort Leonard Wood. The draft EIS for the disposal and reuse of Fort McClellan is out for comment, The final McClellan EIS will be complete in Oct of 98. The final Environmental Baseline Study for Fort McClellan is nearing completion. It determines the environmental condition of the property that will become available for reuse with the closure of Fort McClellan. The Army will follow the EBS with the appropriate studies and remedial actions as required based on reuse scenarios. There are no known environmental impediments at the closing or receiving installations.

10.Description of Proposed Construction Construct a Womens Army Corp (WAC) Museum. Project includes an artifact storage area, administrative space, display area and gift shop. Areas will be provided with architectural finishes as required, heating, ventilation, and air conditioning (HVAC); fire protection; and electrical power and lighting. Supporting facilities include utilities; electric service; exterior lighting; fire protection and alarms systems; paving, walks, curbs and gutters; parking; storm drainage; and site improvements. Connect to the post energy monitoring and control system (EMCS). Access for the handicapped will be provided.

11. REQ: 1,238 m2 ADQT: NONE SUBSTD:

PROJECT: Construct a WAC Museum. (Current Mission)

PROJECT: The 1995 Defence Page Popularment and Closure

REQUIREMENT: The 1995 Defense Base Realignment and Closure (BRAC) Commission recommended closure of Fort McClellan, Alabama, and President Clinton and the Congress accepted that recommendation. Consequently, on September 28, 1995, the recommendation became legally binding. The Army must close Fort McClellan and relocate or disestablish all active Army activities, including the WAC Museum. Fort Lee has been selected as the future home for the WAC Museum.

Sub total for FY99			3,100
TOTAL PROGRAM FOR FY 1996 -	2001		3,100

Conjunctively-Funded Construction: None.

Family Housing Construction: None

Family Housing Operations: None.

Operation and Maintenance: Includes civilian severance pay, civilian PCS and transportation of things.

<u>Military Personnel</u>: None.

Other: None.

Revenues from Land Sales: None. The Army intends to license required land and facilities to the Army National Guard.

### <u>Savings</u>:

Military Construction: None.

Family Housing Construction: None.

<u>Family Housing Operations</u>: Recurring savings resulting from the termination of family housing operations and maintenance.

Operation and Maintenance: The closure of the USAR garrison command and transfer of the enclave to the Army National Guard will result in base operations cost reductions.

Military Personnel: None.

Other: None.

### **Environmental**:

The Army will complete an Environmental Assessment for the disposal and reuse of the excess property at Fort Pickett.

An Environmental Baseline Survey (EBS) is complete and the results will be used to conduct the Remedial Investigation / Feasibility Study and determine remedial actions based on reuse scenarios.

An archeological survey is required to test the archeological sensitivity model. Recordation of the mural in the officers' club will be required, as well as preparation of an MOA or Programmatic Agreement for excess National Register eligible properties. No further natural resources requirements are anticipated.

10.Description of Proposed Construction Construct an addition to exsting building. Project includes foundations, floor slabs, structural steel frames, walls, storage space, administrative space, classroom space, special training purposes, weapons area, kitchen, restrooms, and mechanical, electrical and telephone areas. Work also includes circulation and structural allowances, roll-up garage door for loading purposes, and driveway access to East 10th Street. Building renovation includes structural and mechanical system improvements to allow functional compatibility with the proposed addition. Connect energy monitoring and control system (EMCS). Install an intrusion detection system (IDS). Supporting facilities include utilities; electric service; exterior lighting; paving, walks, curbs and gutters; storm drainage; information systems; and site improvements. Access for the handicapped will be provided. Heating system will be tied into existing hot water system with a new boiler supplementing the lead. Air Conditioning (100 tons) will be provided by a direct expansion air handling unit.

### PROJECT: (CONTINUED)

mechanical areas.

REQUIREMENT: This project will provide the required additional reserve unit space for US Army Reserve (USAR) units assigned to Fort Pickett. The existing structure will be renovated to accommodate increased usage of common areas, and an addition will be provided for increased storage, administrative, and classroom space requirements for the largest drill weekend.

<u>CURRENT SITUATION:</u> Three USAR units will remain at Fort Pickett after its closure. One unit currently occupies a permanent structure while the two remaining units are in temporary facilities.

IMPACT IF NOT PROVIDED: If this project is not provided, reserve enclaves will continue to exist in non-contiguous areas and will not maximize property available for reuse. Providing contiguous spaces complies with BRAC rules for establishing USAR enclaves. Additionally, this project is required to comply with BRAC 95 requirements.

<u>ADDITIONAL</u>: This project has been coordinated with the installation physical security plan, and all required physical security and/or combatting terrorism (CBT/T) measures are included. This project complies with the scope and design criteria of DOD 4270.1-M, Construction Criteria, that were in effect 1 January 1987, as implemented by the Army's Architectural and Engineering Instructions (AEI), Design Criteria, dated 3 July 1994.

### Conjunctively-Funded Construction:

Location/Project Title	Fiscal Year	Tot Cost (\$ in 000)	-	Source
Ft Detrick/Health Clinic (PN 46205)	98	5,000	4,350	FY98 DHP
Ft Detrick/Physical Fit Center (PN 46358)	99	6,536	3,500	FY99 MCA

Family Housing Construction: None.

Family Housing Operations: None.

<u>Operation and Maintenance</u>: Includes civilian PCS, civilian severance pay and transportation of things. Also included are costs to transfer utility control to appropriate local bodies and to meter the ARNG enclave.

Military Personnel: None.

Other: The Alternate National Military Command Center (Site R) and associated communications site became a sub-post of Fort Detrick, Maryland, with transfer of associated BASOPS and other operating costs, effective 30 Sep 97.

Revenues from Land Sales: None.

#### Savings:

Military Construction: None.

Family Housing Construction: None.

<u>Family Housing Operations</u>: Reduction in family housing operations and personnel with the closure of the Fort Ritchie housing.

Operation and Maintenance: Savings result from reduced base operations and real property maintenance costs, and the elimination of civilian personnel positions.

Military Personnel: None.

Other: None.

Environmental: The Army funded an Environmental Baseline Survey in FY96 to determine the extent, if any, of asbestos, lead-based paint, underground storage tanks and grounds cleanup associated with the former impact area and skeet range. The BRAC Clean Up Plan, Version I has been prepared with information available in Jun 96. The UXO Archive Search Report was complete in Dec 96. A Total Environmental Restoration Contract (TERC) has been awarded and UXO studies and surveys began in FY96.

NEPA/Historical/Cultural & Natural Resources: An Environmental Impact Statement (EIS) is being completed for disposal of excess real property at Fort Ritchie, MD. An Environmental Assessment (EA) was prepared with a Finding of No Significant Impact signed April 1996 for realignment action to Fort Detrick, Maryland. A Supplemental Environmental Assessment, addressing changes in construction subsequent to the April 1996 FNSI was completed with a Finding of No Significant Impact signed in June 1996. A separate Environmental Assessment addressing the realignment actions to Fort Huachuca, Arizona was completed and Finding of No Significant Impact signed in May 1997. A Programmatic Agreement for Fort Ritchie was signed in December 1997.

This project is conjunctively funded with Base 10.Description of Proposed Construction Closure, Army (BCA) and Military Construction, Army (MCA) appropriations. The BCA appropriation is \$3,050k, 46 percent of the total construction cost of \$6,600K. A complete and usable facility will not be produced by the funds requested from one source only. The MCA project number is 46358. Construct a standard-design physical fitness center to include a gymnasium, exercise and weight room, staff office, laundry, storage, supply and issue room, four handball/racquetball courts, vending area, locker rooms, showers, toilets and saunas, and mechanical room. Supporting facilities include utilities; electric service; exterior lighting; fire protection and alarm systems; paving, walks, curbs and gutters; parking; fencing and gates; storm drainage; information systems; and site improvements. Stormwater management is linked to the installation system. Access for the handicapped will be provided. Air conditioning (150 tons) using an indoor central station air-handling unit with direct expansion cooling coil and hot water heating coil will be provided. Hot water will be provided by a gas-fired boiler. Mechanical ventilation will be provided. Comprehensive interior design services are required.

<u>Army/Location/Package</u>: Army/New York/Fort Totten.

<u>Closure Package</u>: Close Fort Totten, except an enclave for the U.S. Army Reserve. Dispose of Family Housing.

#### Costs:

### Military Construction:

Location/Project Title	Fiscal Year	PN	Amount (\$ in 000)
Ft Totten/Storage Facility	99	*46258	1,900
Sub total for FY97			1,900
TOTAL PROGRAM FOR FY 1996 - 200	1		1,900

\*Deferred from FY98

Conjunctively-Funded Construction: None.

Family Housing Construction: None.

Family Housing Operations: None.

Operation and Maintenance: Includes civilian severance pay, civilian PCS, transportation of things, real property maintenance, and related costs to facilitate realignment.

Military Personnel: None.

Other: None.

Revenues from Land Sales: None.

### Savings:

Military Construction: None.

Family Housing Construction: None.

Family Housing Operations: Savings will result from the disposal of the family housing units. Savings include civilian pay and base operations support.

Operation and Maintenance: Savings result from decreased base operations costs.

Military Personnel: None.

Other: None.

#### Environmental:

Ft Totten: An Environmental Assessment (EA) is underway for Disposal and Reuse of the excess property; associated Cultural/Natural Resource studies will be accomplished. An Environmental Baseline Survey has been conducted to determine initial site characterization and will be followed up with appropriate studies and remedial action as necessary.

Ft Totten Reserve Component Enclave: The Army will complete required NEPA analysis prior to initiation of construction.

Storage Facilit	У					46258	

#### REQUIREMENT: (CONTINUED)

additional storage will meet the needs of the units for storing tents, equipment sets, winter gear, camouflage nets, and other organizational equipment. Existing storage is in deteriorated, pre-World War I buildings, that will be outside of the proposed Reserve Center enclave.

CURRENT SITUATION: The Ernie Pyle USAR Center is the largest reserve center in the United States. Approximately 2,400 soldiers in 26 units train at the facility. Lack of storage space has caused the units to use several old structures (pre-World War I) on Fort Totten which will no longer be available after closure and excessing of real estate. Several of these older structures are no longer safe for entry and usage. With the garrison presence at Fort Totten, the overall perimeter is secure and there is an attended guard station at the entry. Current buildings are deteriorated beyond the point of safe access and usage. Personnel could be injured and materials lost if existing structures continue to be used.

If this project is not provided, the garrisons' presence and a new secure perimeter, the reserve center will be open to general access. Government equipment and facilities will be subject to vandalism and potential criminal theft unless a secure environment is provided. Equipment conditions and readiness also will be sacrificed without required storage space. Some materials may have to be stored in the open, under temporary cover, which may promote early equipment deterioration. If required storage space is not provided, leased facilities at higher commercial costs would be necessary.

<u>ADDITIONAL</u>: This project has been coordinated with the installation physical security plan, and all required physical security and/or combatting terrorism (CBT/T) measures are included. This project complies with the scope and design criteria of DOD 4270.1-M, Construction Criteria, that were in effect 1 January 1987, as implemented by the Army's Architectural and Engineering Instructions (AEI), Design Criteria, dated 3 July 1994.

<u>Army/Location/Package</u>: Army/Pennsylvania/Kelly Support Center.

<u>Closure Package</u>: Realign the Kelly Support Center by consolidating Army Reserve units on to four of its six parcels. Dispose of the remaining two parcels.

#### Costs:

Military Construction: None.

Conjunctively-Funded Construction: None.

Family Housing Construction: None

Family Housing Operations: None.

Operation and Maintenance: Includes local transportation costs for the movement of equipment.

Military Personnel: None.

Other: None.

Revenues from Land Sales: None.

#### Savings:

Military Construction: None.

Family Housing Construction: None.

Family Housing Operations: None.

Operation and Maintenance: Reduction in base operation and real property maintenance costs will generate savings.

Military Personnel: None.

Other: None.

#### Environmental:

There are no environmental impediments at the realigning installation. The Army will conduct two Environmental Assessments at the Kelly Support Center (one for each parcel since the two parcels are far apart).

<u>Army/Location/Package</u>: Army/Pennsylvania/Letterkenny Army Depot.

Closure Package: Realign Letterkenny Army Depot by transferring the towed and self propelled combat vehicle mission to Anniston Army Depot. Retain an enclave for conventional ammunition storage and tactical missile disassembly and storage. Change the 1993 Commission's decision regarding the consolidating of tactical missile maintenance at Letterkenny by transferring missile guidance system workload to Tobyhanna Army Depot. Note: This package includes funding to disestablish the Defense Distribution Depot, Letterkenny, PA, by relocating material to the Defense Distribution Depot, Anniston, AL and to optimum storage space within the DoD Distribution System. This package also includes funding for all BRAC 95 DLA actions supported by Army.

#### Costs:

#### Military Construction:

Location/Project Title	Fiscal Year	<u>PN</u>	Amount (\$ in000)
Enclave Fencing	99	49714	1,150
Subtotal for FY99			1,150
Missile Maint Facility	00	50298	4,300
Subtotal for FY00			4,300
TOTAL PROGRAM FOR FY 1996 -	2001		5,450

Conjunctively-Funded Construction: None.

Family Housing Construction: None.

Family Housing Operations: None.

Operation and Maintenance: Includes civilian severance pay, civilian PCS, transportation of things, real property maintenance, and contractor costs to facilitate realignment to Anniston and Tobyhanna Army Depots. Includes support to DLA as a tenant organization to relocate defense depot equipment and remaining stocks.

Military Personnel: None.

Other: Includes purchase of manufacturing equipment not available at ANAD or available for realignment from Letterkenny.

Revenues from Land Sales: None.

#### Savings:

Military Construction: None.

Family Housing Construction: None.

Family Housing Operations: None.

Operation and Maintenance: Savings are achieved with the elimination of excess depot capacity and the more efficient utilization of the remaining facilities. This action will eliminate 1281 civilian positions and reduce the base operations and real property maintenance costs for the Army. The savings should result in lower DBOF rates for the customers serviced by the Army depots after the Army implements this action.

Military Personnel: None.

Other: None.

Environmental: The Army has completed the Environmental Assessment (EA) at Anniston Army Depot in support of the towed and wheeled vehicle workload transition and will complete the EA at Tobyhanna Army Depot if the tactical missile maintenance guidance system workload moves there. There are no known environmental impediments at either of the realigning or receiving installations. The disposal and reuse EA will be completed by March 1998.

<u>Army/Location/Package</u>: Army/New York/New Jersey/Minor Fort Dix Sites (Bellmore Logistics Activity/Camp Kilmer/Camp Pedricktown). Minor Ft. Dix Sites.

Closure Package: Includes closure and disposal of:

Bellmore Logistics Activity.

Camp Kilmer, except an enclave for minimum necessary facilities to support the Reserve Components.

Camp Pedricktown, except the Sievers-Sandberg Reserve Center.

#### Costs:

Military Construction: None.

Conjunctively-Funded Construction: None.

Family Housing Construction: None

Family Housing Operations: None.

<u>Operation and Maintenance</u>: Includes civilian PCS, civilian severance and transportation of things.

Military Personnel: None.

Other: None.

Revenues from Land Sales: None.

#### Savings:

Military Construction: None

Family Housing Construction: None.

Family Housing Operations: None.

Operation and Maintenance: Recurring savings resulting from reduced base operations at these installations.

Military Personnel: None.

Other: None.

#### Environmental:

Environmental Assessments will be completed for the disposal and reuse of excess property at each location.

The Army has completed an environmental baseline survey at each of these closing locations. The results will assist in the determination of required studies and remedial actions based on reuse scenarios.

Archeological surveys will be completed at each location. A historic buildings inventory will be required at Camp Pedricktown and Camp Kilmer. No further natural resources requirements are known to exist at these locations.

<u>Army/Location/Package</u>: Army/Montana/Florida/Massachusetts/North Carolina/Fort Missoula/Big Coppitt Key/Hingham Cohasset/Sudbury Training Annex/Recreation Center #2. Minor FORSCOM sites.

Closure Package: Includes closure and disposal of:

Fort Missoula, except an enclave for minimum essential land and facilities to support the Reserve Component units.

Big Coppitt Key, FL

Hingham Cohasset, MA

Sudbury Training Annex, MA

Recreation Center #2, Fayetteville, NC

#### Costs:

Military Construction: None.

Conjunctively-Funded Construction: None.

Family Housing Construction: None

Family Housing Operations: None.

Operation and Maintenance: Includes civilian PCS, civilian severance pay and transportation of things.

Military Personnel: None.

Other: None.

Revenues from Land Sales: None.

Military Construction: None.

#### Savings:

Family Housing Construction: None.

Family Housing Operations: None.

Operation and Maintenance: Base operations and real property maintenance costs are reduced with the closure of these installations which generates annual savings.

Military Personnel: None.

Other: None.

#### Environmental:

Environmental Assessments will be completed for the disposal and reuse of excess property at Fort Missoula, Hingham Cohasset, and Recreation Center #2. Records of Environmental Consideration will be completed at Big Coppitt Key and Sudbury Training Annex.

The Army has completed an environmental baseline survey at each of these closing locations. This result will assist in the determination of required studies and remedial actions based on reuse scenarios.

Petroleum products, asbestos and PCBs are the primary known contaminants at Big Coppitt Key.

Archeological surveys are required at Hingham Cohasset, Recreation Center #2, and Sudbury Training Annex.

At Fort Missoula, HABS Level II recordation of the Historic District may be required. Since 22 of the 27 buildings comprising the Historic District will be declared excess, an MOA or programmatic agreement must be prepared.

<u>Army/Location/Package</u>: Army/Washington/California/Minor Ft Lewis Sites (Camp Bonneville/East Fort Baker/Rio Vista Army Reserve Center/Branch U.S. Disciplinary Barracks, Lompoc). Minor Ft. Lewis Sites.

Closure Package: Includes closure and disposal of:

Camp Bonneville, WA

East Fort Baker, CA. Relocate all tenants to other installations that meet mission requirements. Return all real property to the Golden Gate National Recreation Area.

Rio Vista Army Reserve Center, CA

Branch U.S. Disciplinary Barracks, Lompoc, CA.

#### Costs:

#### Military Construction:

Location/Project Title	Fiscal Year	<u>PN</u>	Amount (\$ in 000)
Nellis AFB/Admin Fac Camp Parks/Army Resv Ctr B	98 Fac 98	46291 46206	3,890 9,500
Subtotal for FY 98			13,390
TOTAL PROGRAM FOR FY 1996 - 2001	L		13,390

Conjunctively-Funded Construction: None.

Family Housing Construction: None

Family Housing Operations: None.

Operation and Maintenance: Includes civilian severance pay, civilian PCS, transportation of things, RPMA, and Management of Environmental for Camp Bonneville.

Military Personnel: None.

Other: None.

Revenues from Land Sales: None.

#### Savings:

Military Construction: None.

Family Housing Construction: None.

<u>Family Housing Operations</u>: Recurring savings resulting from the termination of family housing at East Fort Baker.

Operation and Maintenance: Recurring savings from the closure of Camp Bonneville (BASOPS and RPMA). Recurring savings resulting from the elimination of civilian personnel, RPMA, and BASOPS at East Fort Baker.

Military Personnel: None.

Other: None.

#### **Environmental:**

Environmental Assessments will be completed for the disposal and reuse of excess property at each location except Branch, U.S. Disciplinary Barracks, Lompoc where the Army will do a REC.

The Army has completed an environmental baseline survey at each of these closing locations. This result will assist in the determination of required studies and remedial actions based on reuse scenarios.

An archeological survey of approximately 3,000 acres of open land is required at Camp Bonneville.

If, as expected, the Branch USDB, Lompoc, is transferred to the Federal Bureau of Prisons, no additional cultural resources requirements are anticipated.

Most of the buildings at East Fort Baker are part of an existing National Register Historic District. Since this property will transfer to the National Park Service under existing law, there will be no additional cultural resource requirements.

There are no further cultural resources requirements at Rio Vista.

There are no known natural resources requirements at these locations.

Army/Location/Package: Army/California/Oakland Army Base.

<u>Closure Package</u>: Close Oakland Army Base, California. Relocate Military Traffic Management Command - Western Area and form the new CONUS Command at Fort Eustis, VA. Relocate the 1302nd Major Port Command to NWSC Concord, California. Enclave Army Reserve elements.

#### Costs:

#### Military Construction:

· ·			Amount
Location/Project Title	<u>Fiscal Year</u>	<u>PN</u>	(\$ in 000)
Travis AFB/Admin Facility	98	47187	2,950
Sub total for FY98	•		2,950
TOTAL PROGRAM FOR FY 1996	- 2001		2,950

Note: MTMC's Oakland and Bayonne regional headquarters will colocate at Fort Eustis, Virginia. The funds for this facility are programmed in the Bayonne package in FY99.

Conjunctively-Funded Construction: None.

Family Housing Construction: None

Family Housing Operations: None.

Operation and Maintenance: Includes civilian PCS, civilian severance pay, transportation of things and purchase of equipment required to relocate and consolidate to one CONUS location.

Military Personnel: None.

Other: None.

Revenues from Land Sales: None.

#### Savings:

Military Construction: None

Family Housing Construction: None.

Family Housing Operations: None.

Operation and Maintenance: Savings are the result of the elimination of personnel when the consolidation of the Oakland and Bayonne activities occur and base operations and maintenance from the disposal of Oakland Army Base.

Military Personnel: None.

Other: None.

#### Environmental:

- a. NEPA: An environmental assessment will be prepared for property disposal actions. Fort Eustis has been selected as the relocation site and an Environmental Assessment (EA) has been completed with findings of no significant impact. The EA results were advertised in the federal registry and the 30-day period for comment ended on 15 September 1997. A Record of Environmental Consideration (REC) is being completed to account for the earlier than planned arrival of MTMC personnel at Fort Eustis.
- b. Cultural/Natural Resources: Appropriate studies and consultation will be conducted at the disposal locations.
- c. Cleanup. An Environmental Baseline Survey has been conducted at Oakland to determine initial site characterization and will be followed up with appropriate studies and remedial action as necessary.

Army/Location/Package: Army/Texas/ Red River Army Depot.

<u>Closure Package</u>: Realign RRAD by moving all maintenance missions except for that related to the Bradley Fighting Vehicle series to other depot maintenance activities including the private sector. Retain the conventional ammunition storage mission, the Intern Training Center, the Civilian Training Education, and the Rubber Production facility at RRAD.

#### Costs:

Military Construction: None.

Conjunctively-Funded Construction: None.

Family Housing Construction: None

Family Housing Operations: None.

Operation and Maintenance: Includes civilian severance pay and civilian PCS costs associated with the realignment of RRAD. In addition, costs cover the transfer and installation of equipment used in those maintenance missions moving to another depot activity as well as consolidation of equipment at RRAD. Several facility engineering projects are planned to accommodate workload transfer and consolidation.

Military Personnel: None.

Other: None.

Revenues from Land Sales: None.

### Savings:

Military Construction: None.

Family Housing Construction: None.

Family Housing Operations: None.

Operation and Maintenance: Primary savings listed will be from the elimination of 595 civilian personnel spaces in FY 97 and FY 98 and reduction of required base operations support for the excessed facilities and land.

Military Personnel: None.

Other: None.

Environmental: The Army has initiated an Environmental Baseline Survey (required by Community Environmental Response Facilitation Act, CERFA) for those parcels which will be excessed under the BRAC realignment. Upon regulatory review of this survey, the Army will determine additional environmental actions and develop appropriate milestone schedules. An environmental assessment is also being prepared to address the consequences of disposal and reuse of the excessed property.

10.Description of Proposed Construction Construct a universal function test range for testing and evaluating various ammunition and ammunition components. Project consist of a multi-purpose building with work area, primer test room, pre-condition room, storage area, and restrooms. Additional features include two observation points, firing pad, lightning protection, detonation bunker, and an ammunition service magazine. Supporting facilities include utilities; electric service; paving, walks, curbs and gutters; access road; information systems; and site improvements. Heating and air-conditioning (3 tons) will be provided by a self-contained system.

11. REQ: NONE ADQT: NONE SUBSTD: NONE PROJECT: Construct an ammunition test range. (Current Mission)

REQUIREMENT: This project is required to provide an ammunition test range for accomplishing the recently assigned functional test mission to this activity.

CURRENT SITUATION: The functional test mission is currently being accomplished by the Savanna Army Depot Activity. The Base Realignment and Closure (BRAC) Commission has designated Savanna as a closing installation. The test mission has been reassigned to this activity.

IMPACT IF NOT PROVIDED: If this project is not provided, the lack of adequate facilities to test ammunition items will make it impossible to comply with test requirements, resulting in obtaining questionable and non-uniform function test data. The uncertainty of the function test data will have a detrimental effect on ammunition stockpile reliability throughout the Department of Defense, thus directly impacting the readiness posture of armed forces.

<u>ADDITIONAL</u>: This project has been coordinated with the installation physical security plan, and all required physical security and/or combatting terrorism (CBT/T) measures are included. This project complies with the scope and design criteria of DOD 4270.1-M, Construction Criteria, that were in effect 1 January 1987, as implemented by the Army's Architectural and Engineering Instructions (AEI), Design Criteria, dated 3 July 1994.

#### 12. SUPPLEMENTAL DATA:

Army/Location/Package: Army/New York/Seneca Army Depot.

Closure Package: Close Seneca Army Depot, except an enclave to

store hazardous material and ores.

#### Costs:

Military Construction: None

Conjunctively-Funded Construction: None.

Family Housing Construction: None

Family Housing Operations: None.

Operation and Maintenance: Includes civilian severance pay and civilian PCS costs associated with the closure of SEAD. Costs will also cover the transfer of Industrial Plant Equipment from SEAD to HAAP as well as BRAC related movement of ammunition to BASE X sites. Additional O&M costs will be facility layaway and property disposal actions.

Military Personnel: None.

Other: None.

Revenues from Land Sales: None.

### Savings:

Military Construction: None.

Family Housing Construction: None.

Family Housing Operations: None.

Operation and Maintenance: Primary savings listed will be from the elimination 220 civilian personnel spaces between FY 97 and FY 00 and reduction of required base operations support. Remaining savings will accrue due to elimination of transportation costs, facility engineering, and projects.

Military Personnel: None.

Other: None.

Environmental: SEAD is on the Federal Facilities National Priorities List. The Army initiated an Environmental Baseline Study and Community Environmental Response Facilitation Act (CERFA) report for SEAD. This effort was completed in March 1997. Based on a review of these studies, the Army is determining additional environmental actions and developing appropriate milestone schedules. An Environmental Impact Statement is also being prepared to address environmental consequences of disposal and subsequent reuse of the installation.

Army/Location/Package: Army/California/Sierra Army Depot.

<u>Closure Package</u>: Realign Sierra Army Depot by reducing the conventional ammunition mission to the level necessary to support the conventional ammunition demilitarization mission. Retain a conventional ammunition demilitarization capability and an enclave for the Operational Project Stocks mission and the static storage of ores.

#### Costs:

### Military Construction:

Location/Project Title	Fiscal Year	PN	Amount (\$ in 000)
Sierra/Consolidated Security	98	45872	900
TOTAL PROGRAM FOR FY 1996 - 200	1		900

Conjunctively-Funded Construction: None.

Family Housing Construction: None

Family Housing Operations: None.

Operation and Maintenance: Transportation of things, real property maintenance, and other O&M costs required to realign depot operations.

Military Personnel: None.

Other: Includes equipment and special depot realignment actions required to support the realignment of Sierra AD and the continuing Ammunition mission at the depot.

Revenues from Land Sales: None.

### Savings:

Military Construction: None.

Family Housing Construction: None.

Family Housing Operations: None.

Operation and Maintenance: Primary savings listed will be from the elimination of 96 civilian positions between FY 97 and FY 00 and reduction of required base operations support. Remaining savings will accrue due to elimination of depot operations costs.

Military Personnel: None.

Other: None.

<u>Environmental</u>: The Army will complete an Environmental Assessment for disposal of property at Sierra Army Depot. An Environmental Baseline Survey (EBS) is complete. An RI/FS is currently underway.

<u>Army/Location/Package</u>: Army/Connecticut/Stratford Army Engine Plant.

Closure Package: Close Stratford Army Engine Plant.

#### Costs:

Military Construction: An FY 97 renovation project at Anniston Army Depot (\$1.6M) for the relocation of the recuperator production capability is funded with Army Production Base Support (PBS) funds.

Conjunctively-Funded Construction: None.

Family Housing Construction: None

Family Housing Operations: None.

Operation and Maintenance: Includes DOD civilian PCS, civilian severance pay and transportation of things, and the one-time costs to transition this facility to a caretaker status.

Military Personnel: None.

Other: None.

Revenues from Land Sales: None.

### Savings:

Military Construction: None.

Family Housing Construction: None.

Family Housing Operations: None.

Operation and Maintenance: Savings are achieved with the elimination of excess manufacturing capacity and the more

efficient utilization of the remaining facilities. This action will reduce the base operations and real property maintenance costs for the Army. The savings should result in lower DBOF rates for the customers serviced by the Army after this action is implemented.

<u>Military Personnel</u>: None.

Other: None.

### Environmental:

NEPA: An environmental impact statement will be prepared for this action.

An EBS was completed Jun 97. An RI/FS is currently underway.

There are no known environmental impediments at the receiving locations.

<u>Army/Location/Package</u>: Army/Maryland/Tri-Service Project Reliance.

Closure Package: To execute the Tri-Service Project Reliance Study, BRAC 91 directed the collocation of infectious disease research at the Naval Medical Research Institute (NMRI) to the Walter Reed Army Institute of Research (WRAIR). The recommendation was in the Army section of the Commission Report. BRAC 95 directed the relocation of Infectious Diseases, as well as the Combat Casualty Care and Operational Medicine Programs, from NMRI to WRAIR. The Navy proposed these BRAC 95 recommendations in their section of the Commission Report. OSD, in discussion with the Army and Navy, concluded the Army will fund the NMRI move to WRAIR as part of the BRAC 95 program.

### Costs:

Military Construction: None.

Conjunctively-Funded Construction: None.

Family Housing Construction: None

Family Housing Operations: None.

Operation and Maintenance: Program will fund additional equipment required in new WRAIR facility, replacement of scientific equipment, office furniture, transport of HAZMAT and a small renovation project required for NMRI admin support.

Military Personnel: None.

Other: None.

Revenues from Land Sales: None.

### Savings:

Military Construction: None.

Family Housing Construction: None.

Family Housing Operations: None.

Operation and Maintenance: None.

Military Personnel: None.

Army/Location/Package: Army/Program Management.

<u>Closure Package</u>: Program management and planning and design

costs associated with all Army BRAC 95 actions.

### Costs:

### Military Construction:

Location/Project Title	Fiscal Year	<u>PN</u>	Amount (\$ in 000)
Planning and Design	96		26,000
Subtotal for FY 96			26,000
Planning and Design	97		7,945
Subtotal for FY 97			7,945
Planning and Design	98		5,750
Subtotal for FY 98			5,750
Planning and Design	99		2,350
Subtotal for FY 99			2,350
MOMENT DESCRIPTION HOD BY 1006 OF	207		40.045
TOTAL PROGRAM FOR FY 1996 - 20	JOT .		42,045

Conjunctively-Funded Construction: None.

Family Housing Construction: None

Family Housing Operations: None.

Environmental Restoration: Costs include the reimbursable

program management costs associated with the management of environmental restoration at the U.S. Army Corps of Engineers and the U.S. Army Environmental Center.

Operation and Maintenance: Costs identified in this package are required by the U.S. Army Corps of Engineers for reimbursable costs associated with the management of BRAC 95 real estate, construction, cultural resource actions. In addition these funds are used by the U.S. Communications Electronics Command (CECOM) to manage Information Management Area (IMA) actions in concert with the U.S. Army Corps of Engineers. (CECOM took over this mission upon the disolution of the Army's Information Systems Command (ISC) in 1996.)

Military Personnel: None.

Other: None.

Revenues from Land Sales: None.

### Savings:

Military Construction: None.

Family Housing Construction: None.

Family Housing Operations: None.

Operation and Maintenance: None.

Military Personnel: None.

Other: None.
